

CLAIMS:

1. A lottery ticket construction for playing by a player comprising:
 - a substrate;
 - game information printed on the substrate;
 - 5 game data printed on the substrate;
 - some or all of the game data being covered by a removable covering which can be removed by the player to expose the covered data for playing the game;
 - a battery formed on the substrate;
 - 10 conductive paths formed on the substrate for conducting electric power from the battery;
 - at least one powered element formed on the substrate;
 - and a switch formed on the substrate and responsive to an action on the substrate by the player for conducting power from the battery to the at least one
 - 15 powered element.
2. The lottery ticket according to Claim 1 wherein the battery is printed on the substrate.
3. The lottery ticket according to Claim 1 wherein the conductive paths are printed on the substrate.
- 20 4. The lottery ticket according to Claim 1 wherein the battery and the paths are on the front face of the substrate.
5. The lottery ticket according to Claim 1 wherein the lottery ticket is a break-open ticket.

6. The lottery ticket according to Claim 1 wherein the lottery ticket includes a scratch-off layer.

7. The lottery ticket according to Claim 6 wherein the switch is arranged to be responsive to scratching of the scratch-off coating.

5 8. The lottery ticket according to Claim 7 wherein the scratch-off coating is formed of conductive material and the switch is responsive to changes of conductivity.

9. The lottery ticket according to Claim 6 wherein the scratch-off coating covers game data.

10 11. The lottery ticket according to Claim 1 wherein the powered element generates sound.

12. The lottery ticket according to Claim 1 wherein the powered element generates lights.

15 13. The lottery ticket according to Claim 1 wherein the powered element generates sound and lights.

14. The lottery ticket according to Claim 1 wherein the powered element generates a change in color of ink printed on the substrate.

15. The lottery ticket according to Claim 1 wherein the lottery ticket includes a row of scratch-off areas and a row of powered elements and wherein
20 each powered element is powered in turn as a respective one of the scratch-off areas is scratched by the player.
